FROM TABLE Six

◆ WEDDING FILMS FROM YOUR GUESTS' PHONES ◆

NO VIDEOGRAPHER? YOUR GUESTS FILMED IT ANYWAY

Every guest at your wedding has a camera in their pocket. Zena turns what they film into a real wedding film, edited and colour graded into one look.

HOW IT WORKS

1

CARDS ON EVERY TABLE

We design QR table cards in the style of your day. Guests scan, film and upload straight from their phone. No app.

2

YOUR GUESTS FILM

The vows from row three. Your nan's face. The speech from table six. Every angle you would never get from one camera.

3

ZENA MAKES THE FILM

She sorts every clip, finds the story, grades it into one look and cuts your wedding film. Ready within two weeks.

THE HIGHLIGHT

$590

AUD · ALL INCLUSIVE

Your day in four minutes.

THE FEATURE
